1.

```
Command "python setup.py egg_info" failed with error code 1 in /tmp/pip-build-znvqqy91/bs4/
```

解决问题

```
pip3 install --upgrade setuptools
```

2.

```
File "/usr/bin/pip3", line 9, in <module>
from pip import main ImportError: cannot import name 'main'
```

解决问题

后来发现是因为将pip更新为10.0.0后库里面的函数有所变动造成这个问题。

```
sudo vi /user/bin/pip3
```

将原来的

```
from pip import main
if __name__ == '__main__':
    sys.exit(main())
```

改为：

```
from pip import __main__
if __name__ == '__main__':
    sys.exit(__main__._main())
```
